

DAD PHOTO FRAME

You will need:

A5 card, stickers, sequins, glue, 3 photographs.

1. Draw two D's and an A shape onto the card, and cut out. Use a small pair of scissors to cut out the inside of the letters (younger children will need adult help or supervision).
2. Decorate the letters with stickers, gems, ribbons, sequins, pompoms or anything else.
3. Glue a photo to the back of each letter so that it fills the aperture. Trim an overhanging bit of the photo away.
4. Layer the letters so they overlap slightly, spell out the word 'DAD', and glue together.
5. You could laminate the photo frame to make it last!

Fabulous!
